Email address: tanmaykhosla610@gmail.com

Web: github.com/Tanmaykhoslaa

Results-driven Computer Science Engineering student specialising in Artificial Intelligence & Future Technologies, with strong foundations in Data Structures, problem-solving, and full-stack development basics. Experienced in building real-world projects and leading initiatives, with a keen interest in developing scalable and impactful software solutions.

① PROGRAMMING LANGUAGES

C++

Python

JavaScript

① WEB TECHNOLOGIES

HTML

CSS

① TOOLS & PLATFORMS

Git

GitHub

VS Code

① CORE SUBJECTS

Data Structures & Algorithms

Object-Oriented Programming

Operating Systems

DBMS

Tech Stack: Python, OpenCV, Collab, Yolo Smart Traffic Prediction System

- Designed and developed a traffic analysis system using computer vision techniques to detect vehicle density
- Implemented real-time vehicle detection and data processing for improved traffic monitoring
- Demonstrated practical application of AI concepts in solving real-world urban problems

Tech Stack: React, Next.js, TypeScript, Node.js, MongoDB My Portfolio Website

- Built a full-stack portfolio platform showcasing AI and web-based projects with live demos
- Developed interactive 3D UI using Three.js and GSAP for enhanced user engagement
- Implemented responsive, high-performance frontend with optimized rendering and asset loading
- Integrated backend services and APIs to manage dynamic project data
- Deployed and maintained live application with scalable architecture

Tech Stack: Full Stack Web Development Moodemy – Mood-Based Recommendation System

- Collaborated in a team to build a system that recommends content based on user mood

PROJECTS

- Contributed to frontend development and core logic implementation
- Enhanced user engagement through personalised recommendation features

EXPERIENCE

Social Media Manager
Car Detailing Studio

- Strategised and managed social media content, increasing audience engagement and brand visibility
- Developed marketing campaigns that improved customer reach and interaction
- Strengthened communication, branding, and audience targeting skills

ENTREPRENEURIAL
EXPERIENCE

Founder
TidyTouch (FMCG Household Products Startup)

- Founded and managed a product-based startup targeting hotels and restaurants
- Led product positioning, pricing strategy, and client acquisition efforts
- Gained hands-on experience in business operations, sales, and market analysis

INTERNATIONAL
EXPERIENCE

Artificial Intelligence Summer Program
Telkom University, Indonesia

- Completed an international certification program focused on AI concepts and applications
- Collaborated in a global learning environment, enhancing technical and cultural exposure

EDUCATION

Computer Science Engineering (Artificial Intelligence & Future Technologies) | B.Tech
Chitkara University
CGPA: 8.6

CERTIFICATIONS

Microsoft Azure Fundamentals (AZ-900)

Artificial Intelligence Certification – Telkom University

Joget Certification

HackIndia 2025

Devlearn

Hack With Her

Relevant Coursera Certifications (Programming & Tech)

ACHIEVEMENTS &
LEADERSHIP

- Media Executive – College Club (Handled digital content & engagement)
- Active participant in hackathons and technical events
- Strong networking and interpersonal communication abilities
